-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Examiner acknowledges applicant's citing of related cases in his correspondence dated 9/25/03.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kimura (105).

Kimura discloses a Game Machine With Selective Stop Means For Moving Display.

Regarding claim 1

Kimura teaches a variable display unit with a plurality of symbols which can be view through a front display (figure 2 a stopping controller (col. 2, lines 28-31 & 55-58) and the provision of awards (col. 3, lines 4-20). Kimura teaches lamps (24-26) used to emit signals for the purpose of stopping the reels (col.2, lines 58-62) but fails to explicitly teach a backlight that is set in the front side display unit in order to light up the symbols displayed by the variable display unit. It would have been obvious to one of ordinary

skill in the art at the time the invention was made to include a backlight in Kimura's game machine since the examiner takes official notice that backlights are well known in gaming/slot machines to facilitate the viewing of displayed symbols on reels during game play.

Regarding claim 2

Kimura teaches a backlight to light up the symbols displayed (col. 2, lines 58-62)

Regarding claim 3

Kimura teaches a variable display unit with a plurality of symbols which can be view through a front display (col. 2, lines 42-51 & figure 2).

Regarding claim 4

Kimura teaches a stopping controller and a plurality of individual stoppers for each reel (col. 2, lines 28-31 & 55-58).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takemoto, Sines et al and Okada are cited to show the state of art with respect to features of the claimed invention.
